Archaeology Webquest

Complete the following webquest, recoding your answers in the space below.

http://www.atlantis-webportfolios.com/world/archaeology_webquest.html

1. What is the definition of the word archaeology?

2. What is the difference between archaeology and anthropology?

3. What are some things that archaeologists learn from digs

4. How do archaeologists know that there are things in the ground just by bumps on the ground?

5. Read through this page on Egyptian archaeology. Why did the Egyptians preserve their dead as mummies? How do archaeologists know about the daily life of Egyptians?

6. Not all archaeology involves digging in the ground. Look into Underwater Archaeology and write down at least 3 interesting thing you found out.
